

Packaging machine HSM ProfiPack C400

Small in size – hugely effective! With this packaging machine, you can turn cardboard into a padding mat or padded filling material in one work process. As a compact tabletop device, it can be used as a mobile device with total flexibility.

- High quality materials and “Made in Germany” quality for safety and durability.
- Cutting rollers made of hardened solid steel.
- Powerful drive allows continuous operation.
- Adjustable cushioning volume of the packaging material.
- Infinitely adjustable working width with measurement scale for packaging material made to measure.
- Intuitive operation with LED indicators on robust keypad.
- The integrated turbo-function resolves blockages.
- Recessed handle for easy lifting of the device.
- Non-slip stand.

Intuitive operation

Specially hardened cutting rollers for precision cutting

From waste to packaging material

The HSM ProfiPack packaging machines are a brilliant solution for all shipping and storage areas.

They perforate and bolster up used cardboard and make universal packaging material which is as good as new. This saves costs and, at the same time, is a sensible and practical contribution to environmental protection.

Perfectly packed – with HSM ProfiPack: safely pack different objects easily and save time as well.

Are you looking for a clever solution to pack different products flexibly and safely?

Why buy new packaging material when you have old cardboard boxes?

HSM Profipack turns your old cardboard into high quality packaging material!

Be aware:
Cardboard is a valuable raw material and should not just be thrown away.
